### Things we want you to know!

Stylish look, large colour range

Stylish looks and colours to suit any decor. We can also supply custom colours (minimum machine numbers required).

Adjustable Product Hardness

Adjust the settings to your preferred product consistency

Stainless Steel Pressurised Gear Pump

With Stainless steel gears, the pump ensures the product texture, quality and high overrun, adjustable to 40% to 80%

Gravity Feed System

Control valves naturally add air to the mix producing a consistent product texture and high overrun adjustable to 15% to 60%

Self-Closing Draw Handle

The handle closes automatically stopping the flow of product, minimising waste and mess

High Quality Scraper Blade

High efficiency scraper blade with double plastic scrapers for a soft and creamy product

Mix Level Sensor

Mix low light with audible signal alerts operator to add mix, the mix out feature will shut down the machine

Secure Freezer Door System

Beater motor will not operate without the freezer door secured in place.

Easy Code System

Uncomplicated error code display, making machine functions simpler to understand

Lock Out Cleaning Timer

This timer can be set in line with cleaning schedule. The machine will shut down once the allocated number of days have elapsed. This function ensures the user is aware of when the machine should be cleaned.

All Specifications must be considered approximate: Brüllen reserves the right to modify, without notice, all parts deemed necessary
